ABOUT ME

I am young individual with strong academic achievement and volunteering experience. Poses strong leadership and communication skill with fluent English. I was a technical trainee at Capaciti Tech Career Accelerator doing 6 months intro to Java from March 2020 to August 2020. I would like to gain more experience by working for a company where I'll gain more work experience. Keen to pursue a career in the tech industry, focused on web development. Not only that but driven to one day start my own business. Focused into making the world a better place by influencing the young kids to believe that they can also make the world a better place. Determined to give the young kids the platform to pursue whatever they wish to pursue in terms of their dreams and goals.
